3. 3B Human Muscular Skeleton, disarticulated and entire with a carrying case	6	\$ 539.00	82W3021	\$ 721.10	246782	\$ 599.00	SP32-3021	
4. Adult Skull, Female	3	\$ 184.50	82W3613	\$ 170.15	246955			
5. Adult Skull, Male	3	\$ 206.10	82W3612	\$ 209.47	246952	\$ 37.00	SK46286-00	Adult skull, male from SK Labs is not medical grade - Wards is next cheapest - recommend purchase from Wards
6. Human Vertebrae Set	6	\$ 35.00	3BA75/1	\$ 53.25	247536	\$ 30.45	SK47470-00	We also need higher quality on SK vertebrae - next lowest bid is Wards - recommend purchase from Wards
7. Human Pelvis, Female	2	\$ 49.00	82W1415	\$ 58.21	247765	\$ 74.50	SP82-1415	
8. Human Pelvis, Male	2	\$ 49.00	82W1414	\$ 58.21	247755	\$ 74.50	SP82-1414	
9. 3B Lower limb (leg) musculature	6	\$ 569.00	81W1164	NO BID	NO BID	\$ 554.22	SK46945-00	The SK quote on the lower limb and upper limb model is slightly different from the one photographed in the atlas. In order to avoid student confusion in referenced atlas, recommend we stay with the models referenced - next lowest bid would be Wards.
10. 3B Upper limb (arm) musculature model	6	\$ 413.00	81W1177	\$ 468.49	566715	\$ 402.51	SK46976-00	
11. 3B Muscular, Open-Back Torso Model	6	\$ 1,890.00	81W3096	NO BID	NO BID	\$ 1,223.31	SK46939-00	Torso model from SK is the cheapest bid, but it does not have full coverage of the organs in the front. This is preferable both for storage and educational purposes, this would be the only reference model for abdominal muscles. This is not covered in the original description mainly because I've never seen a torso model that doesn't have full coverage with the abdominal muscles. Recommend purchase of the only other bid, which is Wards.
12. 3B Circulatory System Model	6	\$ 232.00	81W1162	\$ 269.33	566839	\$ 258.00	SP81-1162
